

B3130 DRAINAGE AND RESURFACING WORKS

The long-awaited work to the drainage system on Clevedon Road has been included in North Somerset Council's 2023 work schedule.

Drainage improvement works will be completed from Old Lane to Moor Lane under temporary two-way traffic signals. The works are expected to commence on Monday 30th January for a duration of 5 weeks, finishing on Friday 3rd March. The temporary two-way traffic signals will be in operation 24 hours a day, with works taking place between 8am and 5pm. The temporary two-way traffic signals will be operatively controlled at peak times to reduce disruption and a temporary pedestrian walk way will be erected to ensure pedestrian access is maintained throughout the works.

Carriageway surfacing works will be completed under a night time road closure, between the hours of 8pm – 5am and are expected to commence on Monday 6th March for a duration of 10 days, finishing on Friday 17th March. During the surfacing works vehicular access may be impeded: this means for periods vehicular access will not be possible. Therefore, North Somerset Council ask that vehicular movements are minimised where possible.

It is hoped that similar works at the western end of Clevedon Road will be undertaken very soon.

If you have any queries in connection with the above please contact the Clerk to the Parish Council, Vena Prater, on 07740085015 or email clerk@tickenhampc.org.uk
